

DATE: MAY 22, 2012

TITLE: Lithium Ion Battery Shipments

PRODUCTS AFFECTED: 7060 Replacement Battery Pack

DETAILS:

Lithium Ion batteries have become a commonly used power source in a wide variety of applications as the technology has advanced and reliability has increased.

Due to regulations specifying the way that the batteries are transported and the documentation that needs to accompany the shipment of batteries, effective immediately, the 7060 battery packs (catalog #7069) will only be available in master pack quantities of 6. These will be available in specially printed boxes marked with required warnings.

Pelican's Customer Service Representatives will be in touch with any customers that have current orders of less than 6 and not in multiples of 6 in order to change orders so that the product can be shipped.

If there are any questions please call our Customer Service Representative 1-800-473-5422.
