

PELICAN™ AIR

IS THAT ALL YOU GOT?

With over 13" of depth, our new Pelican Air cases have room for bulky equipment like drones and cinema-grade cameras, and they're still up to 40% lighter than other polymer cases. For ultimate organization choose the multi-layer* padded divider system with a top tray for smaller gear, and a bottom section for larger and heavier equipment. Need even more space? Try our premium TrekPak™ system. Slim, yet tough corrugated sections that are customizable for a precise fit.

Pelican: Built to Protect.

TrekPak™ Configuration

Padded Dividers
Optional Configuration

* multi-layer dividers on 1607 and 1637 only

CONFIGURATIONS

No Foam

This configuration is your blank canvas. You can create the perfect custom solution using premium high density foams at pelicanfoam.com.

Pick N' Pluck™

Classic Pick N' Pluck™ foam is the answer for fast and simple protection. Just pluck the pre-scored foam to fit your equipment.

Padded Dividers

The professional protection solution. Versatile and durable, padded dividers with Velcro™ straps easily adjust to fit your equipment on the fly.

TrekPak™

The TrekPak™ kit is a versatile divider system that allows you to organize your case like a pro. Durable, closed-cell foam is laminated to corrugated panels that provide a precise grid of protection without wasting space. (not available on 1607 and 1637)

CASES SPECIFICATIONS

Case	Interior	Exterior	Weight (lbs)	Colors	No Foam	Pluck	Padded	TrekPak™
1485 AIR	17.75" x 10.18" x 6.15" (45.1 x 25.9 x 15.6 cm)	19.17" x 12.80" x 6.89" (48.7 x 32.5 x 17.5 cm)	4.57 (2.1 kg)	   	•	•	•	•

2016

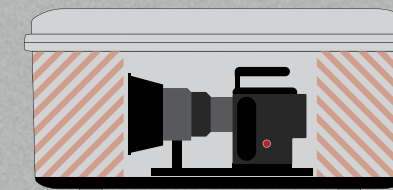

ONE SIZE DOESN'T FIT ALL

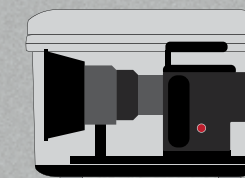

PROTECTOR CASE
(Original)

THEY GREW FROM THE PROTECTOR CASE

Since 1976 our original Pelican™ Protector™ Case line has grown to over 60 unique sizes, but that is still not enough. Pelican™ Air cases offer both long or deep variations you won't find in our Pelican Protector Case line. Now you can get the perfect fit.

WASTED SPACE

PERFECT FIT

LOSE UP TO 40% MORE WEIGHT

THE SCIENCE BEHIND STRENGTH AND LIGHTNESS

The Pelican™ Air case has been designed to cut weight without compromising durability.

Our engineers have revolutionized the protector case by reducing structural waste while preserving Pelican's legendary standards of strength. Here are some important reasons why Pelican Air cases are both strong and light:

- Molded from the next generation of Pelican's lightweight HPX™ resin, a proprietary formula that rebounds without breaking
- Honeycomb structural elements that are actually stronger than solid polymer material
- Super-stiff "full box" sections engineered to create hollow parts

UP TO THE TEST

It wouldn't be a Pelican™ case if you couldn't sink it, drop it, or kick it – and the Pelican™ Air case is no different.

- Drop-tested on concrete with loads from six feet on all sides and corners
- Submerged for 30 minutes at a depth of one meter
- Wheels are roll tested over 914 meters
- 28 lb. (12.7 kg) steel dart dropped on all sides from one meter
