LEO™软冰保存

世紀性保冷技術。保冷箱可延長保冷效果。我們建議使用Pelican™ ICE Packs作為底部保冷層，然後將食物放入箱內，再用碎冰填滿保冷箱的空餘空間。保持箱內冰水有助於保持食物的冷度。

PELICAN™ ELITE COOLER » ICE RETENTION
Pelican™ Elite Coolers can carry ice for multiple days. The key is keeping the cooler sealed as much as possible and using the ice-type that will work best for your needs. We suggest using Pelican™ ICE Packs on the bottom, placing your contents inside, and filling the remaining space in the cooler with crushed ice. Keep any melted ice in the cooler until you are done with use. Ice-water helps keep everything chilled, air does not.

WHAT KIND OF ICE
For short term use, typical crushed ice works well. If you plan to use your cooler for more than 48 consecutive hours we suggest using the Pelican™ ICE Packs.

PELICAN™ ELITE COOLER + ICE RETENTION
Pelican™ Elite Coolers are ideal for many uses. The key is keeping the cooler sealed as much as possible and using the ice-type that will work best for your needs. We suggest using Pelican™ ICE Packs as the bottom layer, placing your contents inside, and filling the remaining space in the cooler with crushed ice. Keep any melted ice in the cooler until you are done with use. Ice-water helps keep everything chilled, air does not.

WHAT KIND OF ICE
For short term use, typical crushed ice works well. If you plan to use your cooler for more than 48 consecutive hours we suggest using the Pelican™ ICE Packs.
